

Digital microphone console for up to 256 freely programmable functions, with alphanumeric display, Serie APS-388

- Thanks to APS-APROSYS[®] software, this console can be programmed individually to meet your requirements for any functions and configurations, such as single paging/group paging/general paging - door opener/closer - video remote control - selective alarm tripping etc.
- Optionally with integrated speaker and programming for paging resp. answering facility to/from externally selected room/zone/group (intercom mode).
- Can be expanded in modular fashion with additional function keys illuminated pushbuttons, individually labelled).
- Bidirectional BUS line for data communication (minimum cabling costs).
- Very easy-read-off liquid-crystal display (text of your choice) for the relevant functions selected or performed.

APS-388

Basic version for programming up to 63 single paging and 15 group paging/general paging functions.

APS-388-3

Analogous to basic version (APS-388), but with up to max. 5 additional illuminated pushbuttons for special functions.

APS-388-5

Analogous to model APS-388, but with additional incorporated speaker and control for **answering facility** from external room/zone/group (**intercom system**) and max. 10 illuminated pushbuttons for special functions.
